

165.RGBRF.RC

WALL MOUNTED WIRELESS REMOTE CONTROLLER

SPECIFICATION

Voltage	100~240VAC
Max Load Current	3/4/5 x 5A
Operation Frequency	434MHz/888Mhz
IP	IP20
Outputs	3/4/5 Channel
Product Tech	Radio Frequency
Dimensions	115 x 52 x 5mm
Dynamic Mode	34
Dynamic Speed Levels	10
Static Colour	30 colours

PRODUCT DESCRIPTION

This versatile lighting controller is ideal for indoor LED lighting, providing a user-friendly interface with simple, intuitive operation. It offers control of up to 4 zones, each with the ability to set 4 custom scenes, delivering extensive customization across your space. Equipped with 10 preset changing modes, a pause function, and RGB colour adjustment, it allows for seamless lighting transitions and precise colour selection.

The press-button RGBW controller enables direct selection of Red, Green, Blue, and White colours, while the synchronization function ensures consistent pattern changes across all zones. Each R, G, B, and W channel can be dimmed individually, allowing for the creation of millions of colour combinations.

Compatible with smartphone control via app, this controller is available in both three-channel and four-channel configurations for flexible lighting control.
