

Triton IP67

PRODUCT DESCRIPTION

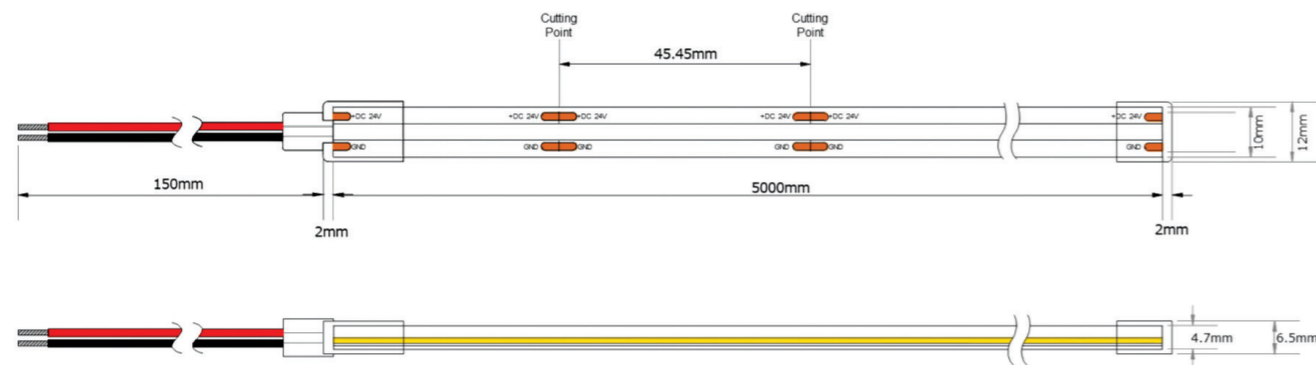

The TRITON IP67 range delivers evenly distributed light, ideal for applications where space is limited, or LED reflection is a concern. This 24VDC tape offers five colour temperatures (2700K, 3000K, 4000K, 5000K, 6000K) with a high CRI of 80+ and continuous diffused LED light with no spotting.

Each 5-meter reel, cuttable every 45.45mm, features a strong 3M adhesive backing and is pre-terminated with 300mm DC cable. The TRITON maintains a slim 12mm profile while still offering superior protection. Enjoy a 5-year warranty with this high-lumen output product.
