

Triton RGBW IP67

PRODUCT DESCRIPTION

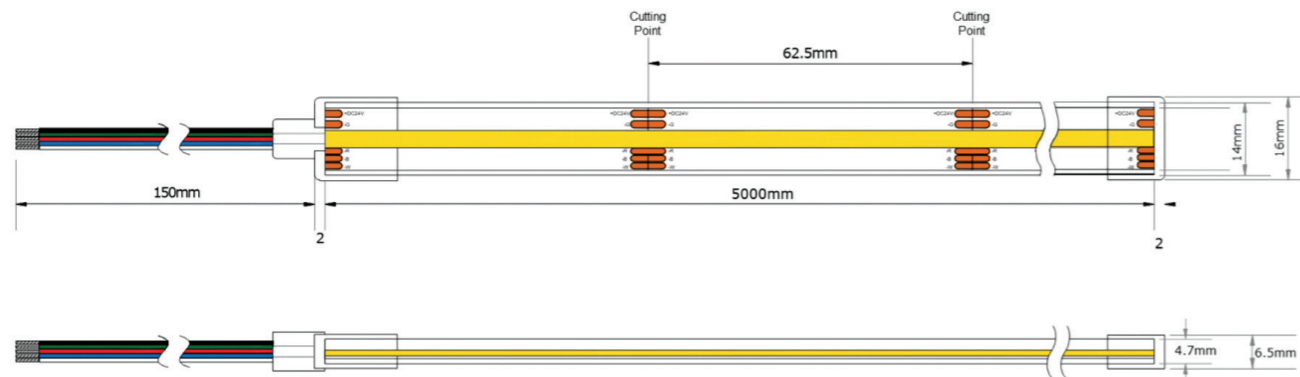

Our RGBW LED continuous tape delivers exceptional colour rendition with a CRI of 80, ensuring vibrant and accurate colours. This high-performance tape boasts impressive lumen output, providing bright and even illumination. Equipped with a reliable 3M adhesive backing, it ensures secure installation on a variety of surfaces.

Featuring a continuous, diffused LED, it eliminates unsightly spotting, creating a seamless and elegant glow. Supplied in convenient 5-meter reels, this versatile tape is compatible with a wide range of control systems including DALI, KNX, Zigbee, DMX, Bluetooth, and RF, offering unparalleled flexibility and customization.
